WORK EXPERIENCE

Fyntune Solution

Software Engineer   12/2023

Elephant Health Insurance
- Designed and developed a corporate health insurance platform UI using **HTML, CSS, JavaScript, Bootstrap, and jQuery**. Enhanced user experience through intuitive design, seamless interactions, and ensured full **cross-browser compatibility**.

Motor Insurance
- Built **mobile-first, multi-device compatible applications** using **HTML5, Tailwind CSS, and React.js-**. Developed dynamic and responsive interfaces to improve usability, performance, and accessibility across devices.

Affinity Insurance
- Designed and implemented user-friendly insurance workflows for **affinity-based products** using **React.js, HTML5, CSS, and modern UI frameworks**. Focused on responsive design, component reusability, and seamless integration to improve customer onboarding and policy management experience.

Employee Benefits
- Designed and developed intuitive user interfaces for **employee benefits management platforms** using **React.js, HTML5, CSS, JavaScript, and Tailwind CSS**. Implemented responsive and scalable components for benefits enrollment, policy configuration, and reporting workflows, ensuring seamless user experience across devices and improved administrative efficiency.

TechSpiron System

Web Developer   06/2023 - 08/2023

Developed and maintained dynamic, responsive web interfaces using **React.js, HTML5, CSS, JavaScript, and Tailwind CSS**, delivering scalable solutions aligned with business requirements.

SkyQ INFOTECH

Web Developer   01/2023 - 03/2023

Contributed to end-to-end web development, creating reusable UI components and interactive features using **modern frontend technologies**, improving user experience and application efficiency.
